Re: President Obama's Unconstitutional Orders

Dear Chairman Goodlatte:

On behalf of the American Freedom Law Center and the more than 500 patriotic Americans who join us in this letter (their names are attached), we call upon you as the Chairman of the U.S. House Judiciary Committee to issue a public statement demanding that President Barack Obama *immediately* end his unconstitutional attempts to usurp Congress' power.

Through executive fiat, President Obama's executive orders and arbitrary decisions on which legally passed laws will be enforced encroach upon Congress' constitutionally-mandated powers and responsibilities and thus undermine our constitutional form of government. American citizens are calling upon you to end President Obama's egregious actions now.

Respectfully,

Robert J. Muise, Esq.
